

We recently received a grant from the Northern Neighbours Foundation in support of our public outreach initiatives to inform people on what they can do to prevent the spread of zebra mussels and other Invasive Species into our pristine northern waters.
Thank You Northern Neighbours Foundation!

**CLEAN
DRAIN
DRY
WATERCRAFT
& GEAR**

Clean Means: watercraft and water-related equipment are free of zebra mussels, other Aquatic Invasive Species (AIS), vegetation, and mud.

Drain Means: no residual water in the watercraft, including live well and engine, lower boat motor to drain water, remove all drain plugs when transporting your craft to comply with Provincial AIS regulations.

Dry Means: watercraft, ropes, lifejackets, other gear are dry prior to going in another waterbody.
